

CeBIT 2011

Your CeBIT newsletter: New design, optimized service!

More trade fair news, industry info, background reports and, from January 2011, freely selectable focal points: Stay one step ahead with the CeBIT Newsletter Service!

Dear Newsletter subscriber

CeBIT pro, CeBIT gov, CeBIT life and CeBIT lab - these are the four integral platforms which together comprise the CeBIT concept. In this issue, you will discover what each platform is all about and the benefits they offer. And there's more: current CeBIT and industry news, service tips and your chance to win prizes for contributing bright ideas!

Sincerely,

Your CeBIT Newsletter team

Hot off the press!

Google activating 300k Android phones per day

(heise online) Google has confirmed that 300,000 Android phones are being activated per day, and a new series of studies show that Android-based devices are particularly "data hungry" compared to other smartphones.
