11th International MES Conference

# Guided Tour „MES-Solutions“ – Tour 2: English

Thursday, 04 April 2019 / Tour start: Convention Center (CC), room 3 A

	3:00 - 3:20 p.m.	Convention Center (CC) room 3A	Registration and distribution of headsets Tour 2: English	
1	3:30 - 3:40 p.m.	Hall 6 Stand A40/ 41	 <b>Hewlett Packard Enterprise</b>	<b>Hewlett Packard Enterprise GmbH</b> Herrenberger Str. 140 71034 Böblingen, Germany <a href="http://www.hpe.com/info/iiot">www.hpe.com/info/iiot</a>
<p>Everybody is talking about the connected, automated and data-driven future of manufacturing. MES systems used to be only on-premises with direct connection to the machine and with proprietary protocols. This has evolved into including topics like cloud, interoperability of data platforms or artificial intelligence into that world. HPE will demonstrate a 'live production line' and think tanks to show that through a right mix of Cloud and Intelligent Edge Computing processes can be optimized and more automated. In addition a more effective quality assurance and increase of uptime allows an even higher business value from all existing data.</p>				
2	3:45 - 3:55 p.m.	Hall 7 Stand B26	 <b>GFOS</b> <small>IT – inspired by you.</small>	<b>GFOS GmbH</b> Gesellschaft für Organisationsberatung und Softwareentwicklung mbH Am Lichtbogen 9 45141 Essen <a href="http://www.gfos.com">www.gfos.com</a>
<p><b>Industry 4.0-ready: MES exactly tailored to your needs</b></p>				
<p>Industry 4.0 and the associated networking of the entire value chain are central topics in the German manufacturing industry. MES is considered one of the enablers for Industry 4.0. The core of Industry 4.0 is the intelligent networking between people, objects and systems, which makes it possible to provide real-time information, to react dynamically and to carry out comprehensive optimizations. And that's exactly where the MES from GFOS comes in! No matter if small medium-sized or large companies – we offer the right MES solution. Our slogan IT – inspired by you is to be understood literally. We make software for you! We create the MES you need – in the cloud or on premise!</p>

11th Internationale MES-Tagung

01 – 05 April 2018, Hannover, Germany

# Guided Tour „MES-Solutions“ – Tour 2: English

Thursday 04 April 2019

3	3:55 - 4:05 p.m.	Hall 7 Stand A29/ B34	 Germanedge	<b>MES Solutions Verwaltungs GmbH</b> <b>Germanedge</b> Dessauerstraße 15 80992 München <a href="http://www.germanedge.com">www.germanedge.com</a>
<b>World premiere at the HMI 2019. Germanedge launches the new EdgeOne platform.</b>				
Germanedge is living up to its name by unveiling the new EdgeOne platform that combines all software components to generate maximum digital production efficiency. Already highly integratable today, it is also designed to be future-proof for all of tomorrow's digital production worlds. From strategic planning to the shop floor, from the simulation of production processes via a digital twin to maximum production output, EdgeOne is the go-to tool for those eager to take digital production to a whole new level. But the edginess also comes from the enhanced user experience. After all, you can only generate outstanding results if you're having fun in the process.				
4	4:05 – 4:15 p.m.	Hall 7 Stand A34	 DÜRR GROUP	<b>iTAC Software AG / DÜRR Group</b> Aubachstr. 24 / Carl-Benz-Strasse 34 56410 Montabaur / 74321 Bietigheim-Bissingen <a href="http://www.itac.de">www.itac.de</a> / <a href="http://www.durr.com/de/">www.durr.com/de/</a>
<b>MES &amp; IIoT Solutions based on Dürr Group Know-how</b>				
At the Hannover Fair 2019 the DÜRR Group will be showing news from the world of networking and digitalization in production. For this purpose, the companies iTAC Software AG, DUALIS GmbH IT Solution, LOXEO/ADAMOS and the DÜRR Systems AG are going to present their MES and IIoT solutions perfectly harmonized with each other. The companies contribute their expertise in automation and digitalization: DÜRR as machine and plant manufacturer, iTAC as global MES provider, DUALIS as specialist for detailed production planning and LOXEO as digital IoT marketplace as well as ADAMOS as IIoT platform provider. Together, they will be exhibiting combined solutions in the fields of IIoT AGV, Analytics, Planning, MES, APS and Assembly.				
5	4:20 - 4:30 p.m.	Hall 7 Stand F34	 VIDEC	<b>VIDEC Data Engineering</b> Contrescarpe 1 28203 Bremen <a href="http://www.videc.de">www.videc.de</a>
<b>VIDEC – Software for Automation</b>				
VIDEC has been supplying innovative software products from the field of automation technology for more than 25 years. Analyses and reports for process optimization are created with ACRON. Messages and critical events are selectively relayed via AIP, the intelligent alarming system, atvise is used as an all-in-one solution for web-based visualization tasks. IRMA offers you holistic protection against cyberattacks in your production facilities. With iFIX and Historian we realize sophisticated SCADA solutions. With JUNE5 as a mobile control station, we provide you with real-time access to all plant information. Plant Application is the mature MES system for your production. With Predix as a cloud-based platform for the industrial Internet, we connect your production facilities worldwide.

# Guided Tour „MES-Solutions“ – Tour 2: English

Thursday 04 April 2019

6	4:25 - 4:40 p.m.	Hall 7 Stand F12		T.CON GmbH & Co.KG Straubinger Str. 2 94447 Plattling <a href="http://www.team-con.de">www.team-con.de</a>
<b>MES CAT, the digital hub in production - fully integrated into your SAP landscape</b>				
<p>The MES specialist T.CON supports customers in the integration and optimization of business processes with SAP S/4HANA. T.CON shows particular strength in production and MES processes. As a holistic consultant we see all these processes along the value chain. With this know-how, the MES CAT Suite was developed, which effectively supports manufacturing companies in improving processes in a targeted and continuous manner. Data from production-related systems can be integrated seamlessly and in real-time into the information flow of the central SAP system. This provides a clear view of production processes and current production figures, which can be called up at any time at the push of a button. MES CAT has SAP certified integration in SAP NetWeaver.</p>				
7	4:45 – 5:00 p.m.	Hall 7 Stand E11		gbo Datacomp GmbH Schertlinstr. 12a 86159 Augsburg <a href="http://www.gbo-datacomp.de">www.gbo-datacomp.de</a>
<b>A clear view with MES - Step by step to the Smart Factory</b>				
<p>datacomp focuses on its modular solution bisoftMES. The ideal companion for the production-oriented medium-sized business on its way to Industry 4.0 and Smart Factory. With bisoftMES, digitization is achieved step by step by integrating existing systems through state-of-the-art interfaces. Professional competence in various industries ensures tailor-made functionalities.</p> <p>The range of services is supplemented by the new module bisoftWEB as ADD-on to bisoftMES Version 10, which ensures the greatest possible flexibility on every terminal up to the smartphone and this with absolute data security. All you need is an Internet browser of your choice.</p>				
8	5:00 - 5:30 p.m.	CC Foyer	Return of Headsets/Receiver
