

LIGHTWEIGHT FOR TOMORROW

Innovations in Injection Moulding and Additive Manufacturing

MANUEL WÖHRLE

SENIOR SALES MANAGER LIGHTWEIGHT

Lightweight-Forum Industrial Supply Hannover, 1.4. – 5.4.2019

ARBURG

FACTS AND FIGURES

- Headquarters in Germany on approx. 171,000 m²
- Consolidated turnover 2017: EUR 698 million 2018: EUR 750 million
- Export share ~70 %
- ~3,000 employees worldwide

MODULAR PRODUCT PORTFOLIO

Modular Injection moulding machines Industrial additive manufacturing systems

Flexible robotic systems
Turnkey production

Integrated Machine control system

Efficient production management

arburg

HOLISTIC APPROACH TO FIBRE REINFORCED PLASTICS

MATERIAL	CUSTOMER BENEFIT
PBT substituted with PP- LGF	Parts 30% lighter Shortened cycle time
PROCESS	CUSTOMER BENEFIT
Standard LGF-process substituted with fibre-direct compounding (FDC)	Better mechanical properties Material cost savings Flexible material selection Lower CO ₂ -footprint

HOLISTIC APPROACH TO FOAMED PLASTICS

MATERIAL	CUSTOMER BENEFIT
Compact PC substituted with foamed PC (ProFoam)	Parts 30% lighter Lower CO ₂ -footprint
PART DESIGN	CUSTOMER BENEFIT
Process allows part design optimization	Reduced wall thickness Higher part quality (sink marks)
PROCESSES	CUSTOMER BENEFIT
Dynamic mould heating	Good surface quality

HOLISTIC APPROACH TO HYBRID PARTS

MATERIALS	CUSTOMER BENEFIT
Foamed PP-LGF + TCS	Hybrid lightweight part Lower CO ₂ -footprint
PART DESIGN	CUSTOMER BENEFIT
Process allows part design optimization	Reduced wall thickness
HYBRID PROCESSES	CUSTOMER BENEFIT
Substitution of thermoplasts

OPTIMISING PART DESIGN FOR LIGHTWEIGHT PARTS

- Lightweight structures are possible
- Design and process optimised for weight and materials
- Stability and strength at the same time

ARBURG freeformer Integrated Lightweight Plaza Halle 5, Stand B18

PROTOTYPES - FAST TRACK TO MARKET **MATURITY**

- Magura GmbH und Co. KG
- Material
 - PA 10
 - Desmopan
- Speed up the development process
- Functional testing with prototypes

ORDER-BASED PRODUCTION OF EQUIPMENT – SINGLE-UNIT BATCHES

- Individually adapted gripper systems
 - Tailored to product properties
 - Manufactured directly on anodised metal plate
- Integrating freeformer into automated production cell

ARBURG AM Factory
Halle 6, Stand J10

LIGHTWEIGHT - NEW PATHS OF INNOVATION

- Cost-effective lightweight construction intelligent choice of material and process
- Holistic approach targeted optimization of the whole process
- Your partner –
 ARBURG constantly develops new solutions
- Requirement get involved with the technologies
