

IT Celebrities at Planet Reseller

As in the past, this year too the editors of Computer Reseller News will welcome leading executives from the ITC branch to the "Glass Studio" at Planet Reseller, where experts from CRN's editorial staff will query the managers about current channel topics. Visitors to CeBIT's center for specialized dealers will also be able to watch these interviews live in CRN's TV studio. Many celebrities have already agreed to grant live interviews. You can find the exact scheduling at www.crn.de/planet-reseller and in the next print edition of CRN.
