Hannover Emission Zone

Besides being home to many of the world's foremost trade fairs, Hannover is also known for its environmental awareness. On 1 January 2008, Hannover joined Berlin and Cologne in an effort to lower the health risks associated with motor vehicle exhaust (especially diesel exhaust particulates) in their respective city centers. To accomplish this, Hannover has established an official "Emission Zone" roughly defined by the expressways (Schnellwege) encircling the city center. The Emission Zone is indicated by signs reading "Umwelt-Zone". Only vehicles which meet certain minimum requirements are permitted to enter the Emission Zone. To demonstrate compliance, an official permit (disc-shaped sticker) must be displayed on every vehicle's windshield.

Emission Zone Permits can be order at the homepage of TÜV-NORD:
<http://www.tuev-nord.de/english/48859.asp>

For further question please contact direct:

TÜV NORD AG
Am TÜV 1
30519 Hannover

fax: +49 511 986-1237

General information

If you come by car, signs in the greater Hannover region telling you how to get to the exhibition grounds are only available on the motorways and the special trade fair expressway or "Messeschneilweg". Traffic management is achieved by way of an electronically controlled, centralized routing system which is the only one of its kind in Germany. This covers:

- traffic control systems on the BAB 2 and BAB 7
- additional, lane guides at motorway (Autobahn) intersections
- the traffic routing system on the Messeschneilweg
- the parking guidance system around the Messe ring road

Information displayed on these road signs and signals are based on automatically generated and electronically calculated traffic flows. This allows traffic delays to be identified immediately so that the optimum route to and from the exhibition grounds can be displayed at all times. Please make sure you follow the advice given on road signs and electronic signals and only drive along recommended routes.
