Green light for growth!

LIGNA HANNOVER is the leading international trade fair for the forestry and timber industries. From 18 to 22 May 2009 it will once again serve as a powerhouse and driver of change for the whole industry.

This international get-together for the forestry and timber industries is the ideal place to compare rival products, share knowledge and network with colleagues and fellow professionals. This is where the latest technical developments, new products and trends are presented for the first time to a wider audience.

LIGNA HANNOVER is a unique showcase for wood as a material and for the complete industrial processing chain that turns trees into finished products. Here you can discover what suppliers worldwide have to offer for all sectors of the woodworking industry – including valuable ideas and inspiration!

With an extensive supporting program for 2009, LIGNA HANNOVER will once again play a key role in promoting networking and knowledge transfer across the industry. Numerous user-oriented special presentations, seminars and conferences, together with international matchmaking events and conventions, underline the strategic importance of this flagship trade fair for the industry worldwide. We look forward to seeing you at the show!
