BIOTECHNICA PARTNERING
Your Route to Successful Collaborations

Hannover - Germany, 6 - 8 October 2009

BIOTECHNICA Partnering

The **BIOTECHNICA PARTNERING** concept, developed in cooperation with the global market leader **EBD GROUP**, brings together international decision makers from all sections of the biotechnology industry. Wherever your interests lie - business to business, science to business or science to science - you'll perform at your best if you have the right partners. And to help you find these more quickly, BIOTECHNICA gives you access to a sophisticated online networking tool, enabling you to sound out likely prospects in the run-up to the show.

Having made initial contact, you can decide whether or not to meet these potential partners face to face at BIOTECHNICA PARTNERING. Your time is maximized because your personal schedule of one to ones only includes your approved pre-selected partners..

We bring together what belongs together.
