## CeMAT 2011 – THE GLOBAL MARKET AT YOUR FEET

Welcome to the No.1 showcase for intralogistics. The industry that keeps the world moving never stands still in its search for more efficient applications and solutions. The booming demand for intralogistics products has delivered massive growth rates across the industry over the past few years. This trend will continue, despite the current economic downturn – a sure sign of the continuing integration of international logistics flows that goes hand in hand with globalization.

The world's leading trade fair for industrial logistics will open its doors to the public from 2 to 6 May 2011 in Hannover, ready to demonstrate the latest in industrial logistics systems and applications to a professional buying public.

Worldwide there is no other marketplace that provides such a comprehensive overview of what is currently available in systems and services for intralogistics. Here you'll meet highly qualified decision-makers, business partners and customers from all over the world. The industry's market leaders and innovation drivers will be at the show, presenting all the latest new products and technologies.

So make sure you book in good time to secure your place – at the global marketplace for intralogistics.
