Dear Mr. Labendsch,

Rittal GmbH & Co. KG, which has its headquarters in Herborn, Germany, is one of the world's leading system suppliers for housing and enclosure technologies, power distribution systems, system climate control and IT infrastructure. Customers from all sectors of industry and mechanical engineering, as well as from the IT and telecoms market, are making use of Rittal solutions. Founded in 1961, Rittal is now active worldwide with 13 production sites, 63 subsidiaries and 40 agencies. With 9,000 employees worldwide, Rittal is the largest company of the proprietor-run Friedhelm Loh Group. The entire group employs more than 10,600 people and generated revenues of more than € 2.2 billion in 2008.

Rittal is one of the largest exhibitors both at the Hannover Industrial Fair and at CeBIT.

Rittal has been attending fairs in Hannover since 1963 and maintains a very cooperative partnership. This partnership with Deutsche Messe AG is decisive for our fair success.

We can give a wholly positive assessment of the cooperation with the exhibition organisers. Particular praise is due at this point for the professional preparation, the simple and unconventional communication and the exceptionally prominent readiness to render assistance wherever necessary. The organisers also catch the spirit of the times for the numerous trade visitors with their pertinent selection of exhibition themes, and in this way provide a pleasant setting for us to establish many new and valuable contacts.

Yours sincerely,
Rittal GmbH & Co. KG

Martin Kandziora
Vice President Market Communication
