

KEY FIGURES (2010)

Visitor Profile

Exhibitors: 241 from 13 countries

Special pavilions from German Regions of Baden-Württemberg, Berlin/Brandenburg, Bremen/Lower Saxony, North Rhine-Westphalia, China Pavilion and International Pavilion

Exhibition area: 12.000 sqm / **Visitors:** 15.426

Some Keyplayers Exhibited at Renex 2010

- Anel Group
- Fronius Solar
- PhonoSolar
- Bonfiglioli
- Lagerwey
- RES
- Buderus
- Merk Solar
- Schletter
- Donauer Solar
- Multi Contact / Staebli
- Schüco
- Energetica
- Orbit / Nedap
- Würth Solar
- Eziç Metal

Participation Options

Option 1

space only

Indoor : 140 €/m²+ 18% VAT

Outdoor : 75 €/m²+ 18% VAT

Option 2

space and shell scheme

155 €/m²+ 18% VAT

Option 3

space and special design shell scheme

180 €/m²+ 18% VAT

Option 4

International pavilion

195 €/m²+ 18% VAT

**Early Bird Discount: 10 Euro/ sqm
Until: 30 March 2011**

* Please contact us for special country pavilion offers.

Explore the Enormous Potential in Turkey

RENEX 2011 Your Benefits

Key Areas

New legislation for Renewable Energy

The Turkish Government announced a change in the legislation for renewable energy resources market in Turkey. The new legislation regulates the volume of energy the state allows to buy and determines new feed-in-tariffs for the different kinds of renewable energy resources.

More focus on Energy efficiency

In Turkey, Energy Identity Cards legislation will be executed and all new buildings will be identified according to their class of energy efficiency. The target is to provide Energy Identity Card before providing building license to all new buildings.

Turkey's Energy Market

- Seventh largest energy market in Europe.
- Annual increase of energy consumption by 8% until 2016 estimated.
- Commitment to have 20% of energy created with renewable energy until 2020 (EU Standard).
- Photovoltaics: average 7,2 hours of sunshine every day.
- Wind: 8000 km coastline and almost perfect conditions for wind energy.
- Geothermal: With 170 areas of geo- thermal heat and 1000 thermal sources, world's fifth largest potential for geothermal energy.

- Only exhibition in Turkey including the complete range of renewable energy and energy efficiency related products and services.
- Synergy from exhibition and forum area staged within the exhibition area.
- Special country pavilion offers for international companies.
- The fairground's central location next to the international airport ensures convenient access for visitors.
- Ideal platform for networking with politicians, entrepreneurs and investors.
- Worldwide marketing through the network of Deutsche Messe Worldwide Group.
- Long-term experience of the organiser guarantees professional and high-quality services.

PRODUCT GROUPS

- Solar & PV Technology
- Wind Energy
- Geothermal Energy
- Heat Pumps
- Bioenergy
- Energy Efficiency & Renovation
- Decentralized Energy Management
- Cogeneration
- Hydro Energy
- Water Purification, Treatment Systems and Equipments
- Insulation
- Related Services
