

MORE SAFETY FOR MORE BUSINESS.

## CORONA PROTECTION AND HYGIENE INSTRUCTIONS FOR EVENTS AT THE HANNOVER EXHIBITION GROUNDS

April 2022, Hannover

### No access restrictions

The corona-related access restrictions to the exhibition grounds no longer apply. Vaccination status will not be requested, nor is a negative corona test proof required.

### Mask obligation

There is no general obligation to wear masks. However, a medical mask must be worn indoors in entrances, hall aisles, service and sanitary areas. At the exhibition stands, the requirements of the respective exhibitors apply. In conference areas and catering facilities, the medical mask must be worn all the way to the seat.

### Distance

Whenever possible, a distance of 1.5 meters from other persons should be maintained. We kindly ask you to take this into account when planning and implementing your trade show appearance.

### Hygiene, cleaning, ventilation

The Hannover exhibition grounds already has an infrastructure that meets the highest hygiene standards. We regularly clean and disinfect surfaces, door handles and handrails. With continuous air exchange, we ensure fresh air in our halls, entrances and conference areas.

For the safety and health of all trade show participants, we ask you to adhere to the basic rules of hygiene and conduct (refrain from shaking hands, washing and disinfecting hands regularly, sneezing into the crook of your arm, etc.).
